

EMPLOYEE AND OPERATIONS PORTAL

MyIntelik

One portal for your whole workplace.

People, projects, attendance, payroll, communication and documents in one secure, branded system. Replace the spreadsheets, chat groups and disconnected tools.

Deployed as a branded employee portal for Hyundai

THE PROBLEM

Too many tools. One portal instead.

Growing companies lose time and control when HR, attendance, projects, expenses and documents live in different tools, and when standups and announcements get buried in chat groups. MyIntelik brings it all into one secure portal with role-based access.

1 hr

a day lost looking for information across messaging, storage and collaboration apps

13 apps

switched between about 30 times a day by the average worker surveyed

80%+

of Pakistan's non-agricultural workforce is employed by SMEs

Sources: Qatalog and Cornell Ellis Idea Lab survey of 1,000 workers, 2021 (CIO Dive); Dawn, 18 August 2025.

WHAT IT REPLACES

Replace the stack, not just one tool

TODAY

WITH MYINTELIK

Excel employee lists

Employee profiles and records

WhatsApp standups

Standups and commitments

Punch machine and paper

Attendance with biometric sync

Ad-hoc payslip PDFs

Payslips and vouchers

Many chat apps and email blasts

Communication and announcements

One login. One source of truth. Your brand.

Everything your teams need, in one portal.

01 People

- Employee profiles and records
- Performance scores tied to delivery
- Manager approval queue
- Training session records

02 Work

- Projects, milestones and tasks
- Daily standups and commitments
- Task approval and timeliness scoring
- Internal tickets with comments

03 Time and Attendance

- Leave requests and approvals
- Day view and bulk attendance entry
- Biometric device sync (ZKTeco)
- Holidays and special hours (e.g. Ramadan)

04 Finance

- Payslips with branded PDFs
- Advances, loans and adjustments
- Fuel vouchers
- Expenses workbook ADD-ON

05 Communication

- Announcements with email reach
- Notifications across modules
- In-portal product updates feed
- Team chat: channels, groups, DMs ADD-ON

06 Documents and Knowledge

- Wiki for company and project knowledge
- Encrypted password vault
- Executive document center ADD-ON

07 Dashboard and Analytics

- Role-aware home and quick actions
- Management reports and insights

08 Admin and Security

- Role-based access for every user
- Biometric sync agents and jobs
- Access control console and sensitive-ops PIN ADD-ON

ONE PRODUCT, YOUR BRAND

Example: full portal

Everything switched on: people, work, time, finance, communication, documents and analytics.

Example: Hyundai Portal

A focused, Hyundai-branded set: HR, time, attendance, payslips, tickets, announcements and documents.

ADD-ON marks optional modules, scoped to each client. Everything else is part of the core portal. The Growth Suite follows on the next page.

Run operations and growth from one portal.

Leadership and sales teams get structured outbound, tender discovery and supplier outreach right next to day-to-day operations. Built from your product context, not random cold lists.

● Growth Hub

- One dashboard for outreach, marketing, tenders and RFQ
- PDF brief for leadership

● Sales Leads

- AI-built ideal customer profile from your buyer briefs
- Apollo.io people search and enrichment
- Personalized email and WhatsApp with cadence
- Lead CRM with statuses and activities

● Government Tenders

- EPADS and PPRA tender sync
- AI classification for IT and software fit
- Eligibility checks, including joint ventures
- Bid Studio packs, compliance matrix and PDFs

● Vendor RFQ

- Parts RFQ programs and supplier CRM
- Outreach by email, WhatsApp and WeChat

● Marketing

- Meta WhatsApp inbox, templates and campaigns
- Auto-reply and CRM fields

● AI Videos

- Text-to-video marketing creatives
- Generated in the portal with Higgsfield

WHAT IT REPLACES

Random LinkedIn hunting

Sales leads with Apollo and AI outreach

Manual EPADS browsing

Tenders, eligibility and Bid Studio

Growth tools are available to leadership and to sales and marketing teams, switched on per client. Integrates with Apollo.io, Meta WhatsApp Cloud, OpenAI, Resend and Higgsfield.

WHY MYINTELIK

Built for control, visibility and trust.

● One workplace OS

People, projects, time, finance and communication behind a single login.

● Accountability built in

Standups, commitments, task scoring and manager review show what actually shipped.

● Biometric-ready attendance

ZKTeco device sync feeds portal records, so payroll needs no double entry.

● Payroll-adjacent finance

Payslips, advances, loans and vouchers with branded PDFs, in one source of truth.

● Secure by design

Role-based access, with sensitive-ops grants and PIN re-authentication for HR and finance data.

● Your brand, your data

Client-specific logo, domain and features, on a separate database per client.

BUILT FOR

CEO, MD, COO

One system for ops discipline and visibility

CFO

Payslips, expenses, advances and loans in control

CIO, CTO, Head of IT

Secure, multi-tenant, biometric-ready platform

Head of HR and Ops

Employees, leave, attendance and performance in one place

Employees and staff

Their own attendance, leaves, payslips, standups, tickets and updates

Sales and marketing teams

Use the Growth Suite for leads, campaigns and outreach

Typical fit: 50 to 500 employees. Also strong for growing firms of 20 to 50 with biometric and HR needs.
